

PROJECT PLANNING PHASE

SPIRIT DELIVERY PLAN

DATE	31 October 2022
TEAM ID	PNT2022TMID08799
PROJECT NAME	AI-powered Nutrition Analyzer for Fitness Enthusiasts

Spirit Delivery Plan:

Every project manager should consider the delivery plan for project deliverables while developing their strategy. In reality, every project seeks to deliver a product that fulfils a certain need. With the word "purpose," we can refer to the most varied objectives: a piece of furniture, a chair, a structure, a translation, etc. In Project Spirit, delivery planning is one of the procedures for finishing the project and displaying the projected timeline. This Delivery Plan aids in comprehending the method and flow of the Project while it is being worked on by the Team Members. Each and every Module is given to a team member to demonstrate their effort and contribution to the development of the Project.
